Daily Health Check

*Health Check Questions

See ELD COVID-19 guidance document for response protocols[1]

1. Has the adult or child been exposed to a person with a positive case of COVID-19 in the past 14 days?
2. Has the adult or child been exposed to a person with a presumptive case of COVID-19 in the past 14 days?
3. Is the adult or child experiencing an unusual cough, shortness of breath, or fever? "Unusual cough" means something not normal for this person (e.g., allergies, asthma).
4. Does the child or adult have symptoms of diarrhea, vomiting, headache, sore throat, or rash?

Document that a daily health check was completed on every person entering and write down pass or fail only. Do not record symptoms or temperatures in order to maintain privacy[1].
