

Board Action Summary

AGENDA ITEM: Health Partnerships – ECCS Grant

Summary of Recommended Board Action

ACTION: Informational

ISSUE: Overview of Oregon’s ECCS Impact grant application

BACKGROUND: The Early Learning Division recently submitted an application for the Early Comprehensive Systems (ECCS) Impact grant to the U.S. Department of Health and Human Services. This is a competitive grant that will fund fifteen states for five years to support place-based innovation focused on two-generational strategies and systems building. The ELD selected Yamhill and Lincoln County, because of the strong collaborations already underway in those regions between Hubs and CCOs, as the two place-based communities to develop and test those innovations. Notification of awards will be made prior to August 1st, 2016.
