

Summary of Temporary Standards in Response to the COVID-19 Crisis Certified Family

NOTE: All state of emergency temporary rules expire when the state of emergency is lifted.

Certified Family Child Care providers under OCC legal orders, settlement agreements, or in the administrative hearing process may not operate under these temporary standards.

Assistant Qualifications:

- An Assistant 2 may begin in their position prior to working 60 hours in the certified family if they meet all other training requirement for an Assistant 2 EXCEPT they are required to complete the Safe Sleep for Oregon’s Infants if the certified family is licensed to care for infants.
- An Assistant 1 must:
 - ✓ If over the age of 18, complete and pass an Emergency Background Check consisting of the following checks: state criminal, national sex offender public website, child abuse, OCC records. **This check does not enroll the individual in the OCC Central Background Registry and expires when the state of emergency is lifted.**

Training:

- OCC will extend the time for renewing providers to complete their annual training, if necessary. Annual training must be completed within 60 days of when the emergency declaration is lifted.
- If CPR certifications are expired, online CPR certification is allowed. OCC suggests that you reach out to your local Child Care Resource and Referral Agency. They may have hybrid courses available. This can help you avoid paying fees twice. Completing the online portion is sufficient for your renewal. If the CCR&R does not have a hybrid option, you and your staff can select another online option. You will have 60 days from when the state of emergency is lifted to complete the in person skills testing.
- If there is no online available in your preferred language, you are not required to renew your CPR certification. You will have 60 days from when the state of emergency is lifted to complete the CPR certification.
