

## Emergency Child Care Facilities Reports of Confirmed and Presumptive Positive COVID-19 Cases April 2021

This report provides information about Emergency Child Care (ECC) facilities reporting a confirmed or presumptive positive COVID-19 case to the Office of Child Care (OCC). From March 2020 through August 2020, OCC recommended that ECC facilities report confirmed and presumptive positive cases to OCC. Reporting confirmed and presumptive cases to OCC became a requirement as part of the updated [“Health and Safety Guidelines for Child Care and Early Education Operating During COVID-19,”](#) which took effect on September 1, 2020.

This report includes information self-reported by ECC facilities to OCC licensing staff. This report only counts ECC facilities once, even if they have made more than one COVID-19 case report to OCC. This report counts ECC facilities in the month they made their first self-report of a COVID-19 case to the OCC.

This report is different from the “Weekly Outbreak Report” published by the [Oregon Health Authority](#) (OHA) each week, which includes outbreaks with two or more cases in child care settings with the capacity for more than 16 students. Coupled with the OHA report, ELD’s report is intended to provide the public with a more complete picture of COVID-19 cases occurring in child care.
