

## The DELC Story

By telling the **DELC story**, we show our employees and partners how our work each day will positively impact Oregon's children, families, and providers.

**To harness our full power to serve Oregon's children, we are embarking on a journey to unify early learning and child care programs into one agency: DELC.**

---

**DELC will support the early care, learning, and success of Oregon's children through data-driven investments and program design.**

---

**The changes we make today will strengthen DELC and its employees to support expansion of Oregon's early learning system.**

---

**DELC will be focused on expanding equitable early learning access for children and families, especially for communities who have been historically underserved.**

---

**Together, we will empower community partners to connect families to high-quality, culturally responsive early learning that meets the unique needs of their children.**

---
